PakStar competition reactivation

After a few years break we are back with another edition of nationwide PakStar competition, this time already in its fourth edition. Packaging or elements thereof may be entered in the competition (e. g. label) and packaging materials produced and/or used for packaging products in Poland (marketed), while in the Student. PakStar - packaging design. Designs and projects may be submitted by students, designers, producers and users of packaging and packaging materials. We are waiting for solutions, innovative, ecological, ergonomic, creative and aesthetically interesting. This is a huge opportunity for development. Your idea and presence on the packaging market in Poland. Don't wait, apply! We are waiting for you! More information can be found here:
